- Even easier, more practical handling
- Fits ergonomically in your hand
- The base of the Easy Pen provides stable, secure support
- The lever permits easy, problem-free use without great force
- Requires less effort from the user
- Allows the user to work longer without fatigue
- The lever presses into the softest part of the bottle, allowing the bottle to be made of hard material, to help prevent moist air from penetrating the bottle and causing the adhesive to harden

WÜRTH V.I.P

VENDING IN PARTNERSHIP

ABOUT THE PROGRAM

What is the Würth Vending Program?

The Würth Vending Program is a customized vendor managed inventory solution for storeroom automation based on the use of vending machines, lockers and supporting software. As a mutually beneficial business partnership, the program can offer solutions to a variety of inventory management concerns:

- Work Flow Efficiency
- Staff Productivity
- Enhanced Inventory Control
- Stock Turnover
- Loss, Theft or Misuse of Goods
- Customer Satisfaction

Würth's Vending Program helps Purchasing Managers control use while offering accessibility to their Workers. In addition to enhancements in the aforementioned areas, the program can offer the added benefit of:

- 24/7 Access
- Cost Reduction; Reduction of Waste by 15-30%
- Elimination of Stock Outages
- Up to a 50% Reduction in Inventory Levels
- Point-Of-Use Access
- Storage of High Quality Items with Secure Access
- Automated and Robust Reporting Options
- Real Time Data Analysis

Our Commitment

Würth offers complete sales and support services to accompany our business partners. By offering a team of Expert Consultants trained in storeroom management optimization, Würth provides commitment to Business Partners by proposing adapted solutions to the industrial and institutional sectors

Our Team will work with you to:

- Provide a customized solution to solve your inventory management concerns.
- Select a date suitable for installation based on availability of both parties.
- Identify appropriate items for vending.
- Identify optimized location. (*** Note: Chosen location must have a Category 5 internet line and power outlet installed prior to the machine installation date**)
- Calculate minimum and maximum quantities based on your average monthly usage.
- Set Up User Administrators and automated reporting to track inventory levels and usage.
- Review contract details and software fees.
- Maintain and stock all installed machines.

BUSINESS PARTNER'S COMMITMENT

1. Potential Business Partners are asked to evaluate their current suppliers. The program can only be implemented with partners who are willing to use Würth Canada as a primary supplier of industry specific products and services.
2. Business Partners agree to a yearly software fee.
3. Business Partner agrees that a minimum monthly sales or growth target will be applicable.
