

SYSTEM CASE

**Your new foundation
for better organization**

TOUGH COUNTRY, TOUGH CASE.

Put your trust in the many well-thought-out details and solutions the System Case provides.

WHAT IS THE MATERIAL?

ABS PLASTIC

Tough, scratch-resistant material is resistant to grease, oil, temperature and weathering. Raised feet prevent the case from getting dirty, and a handle with a 60kg capacity means these cases work as hard as you do.

See pages 12 & 13

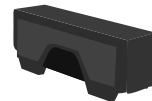

**IMPACT & SCRATCH-
RESISTANT**

HANDLE CAPACITY

RESISTANT TO
oil, grease, temperature,
and weathering

RAISED FEET
prevents case from
getting dirty

WHATEVER YOU PICK...
**WITH JUST
A *CLICK*.**

We know that you need
parts, machines, and tools
for your everyday work...

**Stop wasting time when
getting everything together.**

Everything you need is right
where you need it!

Get your collection of essentials
started with one of our pre-built assortments!

TOUGH ON THE OUTSIDE. SMART ON THE INSIDE.

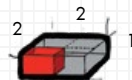

The System Case philosophy:

The system grid ensures that all elements are coordinated and compatible. In this world, everything fits together, and everything has its place. It's an idea, a principle. The System Case is your organizational tool for day-to-day work, developed by Würth for you. Other cases just hold tools, but the System Case is your tool for keeping things in order.

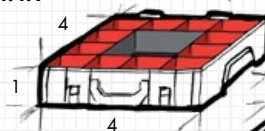

The base size of the cube is: **1.1.1**
One unit wide. One unit deep. One unit high.

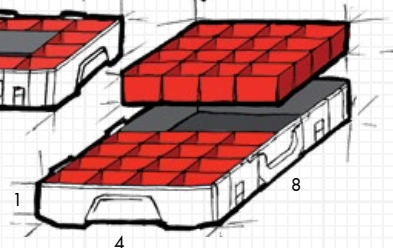

Unit 2.2.1

System Case
4.4.1

System Case
8.4.1

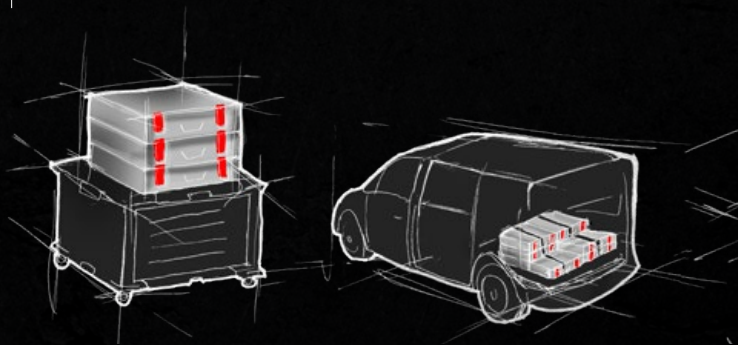

Each number references the **Width.Depth.Height**, and applies to all System World items. Use them as your guide.

Do you ever ask yourself:

**"Do I have *everything*
I need for today?"**

Everything you need is
arranged how you want, in
the case you always pack.

See page 15

FULLY VERSATILE. FULLY PORTABLE.

SELECT

A PREASSEMBLED SYSTEM CASE

The interior System Boxes fit ridges in the floor so everything remains clearly arranged. The structure in the transparent lid connects perfectly with the System Boxes and prevents contents from being mixed.

See pages 12 & 13

HAVE SOMETHING
VALUABLE
YOU'D LIKE TO
PROTECT?

Select one of our **black lid cases** with the splash-proof elastomer seal and a foam inlay you can cut to fit!

See page 14

Also available: moulded inserts to keep things straightforward and storage cabinets so your System Cases have **a permanent home when they're not travelling.**

See page 14

See page 15

SYSTEM BOXES

**They fit in System Cases,
hang at your workbench,
on your cart, and more.**

**SYSTEM RAILS
can turn any flat
surface into a
storage solution!**

Most System Boxes have a lip
which allows them to hang from the
System Rail, or on the edge of a cart.

The possibilities
are **ENDLESS!**

A case seldom travels alone.

THE SYSTEM CASE **NEVER DOES.**

Anything is possible with unlimited
ways to organize your essentials.

START YOUR COLLECTION

System Case – 4.4.1 (Empty) 370 x 270 x 85 mm

Base size: 1.1.1

□ 4.4.1 – BLACK LID

5581.020000

Applications:

Ideal organizational tool used for carrying a variety of consumables and tools. Plastic inserts and red modular boxes can be used. Rubber seal around lid assists in preventing moisture.

□ 4.4.1 – CLEAR LID

5581.020500

Applications:

Ideal organizational tool used for carrying a variety of consumables and tools. Transparent lid allows you to easily see contents. Compatible with red modular boxes. Carefully designed lid keeps your items in place during travel.

*Clear lid System Cases not compatible with plastic black inserts

System Case – 4.4.1 (with Red Boxes) 370 x 270 x 85 mm

Applications:

Ideal for storing small parts, this pre-configured assortment case allows you to customize the space with ease using red dividers. (5581.035021 sold separately)

Transparent lid allows you to see contents inside.
