1 DIGITAL VERNIER CALIPER

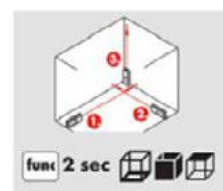

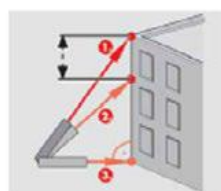

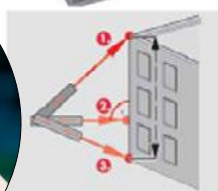

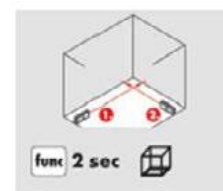

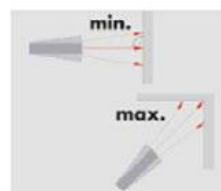

Precision measuring in metric & standard for external and internal distances. Base measuring functions include: inside, outside, depth, and step measuring.

LASER RANGE FINDER

High-precision laser distance measuring unit with large illuminated display for excellent legibility. Extra-thick housing components offer optimal impact protection.

2

3

INFRARED LASER THERMOMETER

An integrated laser pointer for measuring surface temperatures.

Ergonomic, practical and suitable for use anywhere

Thanks to the two-point laser beam, the measuring point can be focused even more precisely

Can be switched from Celsius to Fahrenheit

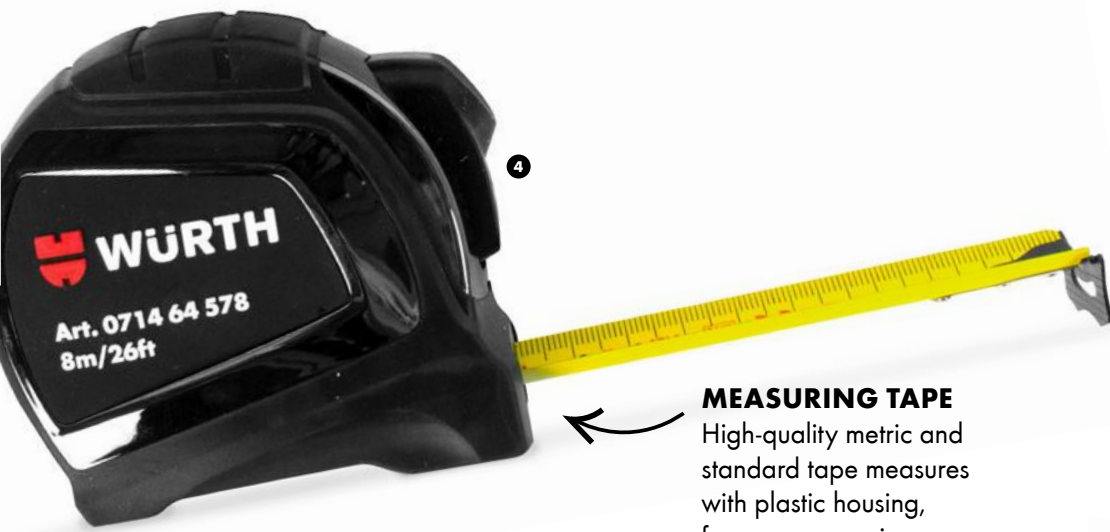

With integrated display lighting

Display of results with one decimal place

Adjustable alarm with extremely high or low temperatures

Infrared laser thermometer is supplied in a practical pouch which can be fastened to a belt

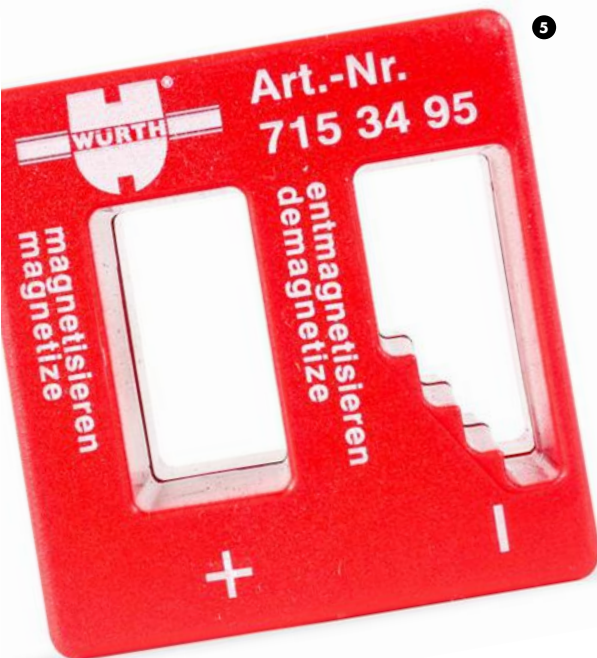

MEASURING TAPE

High-quality metric and standard tape measures with plastic housing, for easy measuring.

PREMIUM SPIRIT BEAM LEVEL

Milled measuring surface with strong magnets and V-shaped groove, for strong hold on pipes, profiles etc.

MAGNETISER & DEMAGNETISER UNIT

Suitable for the magnetizing and demagnetizing of steel tools.

WHAT IS A ZEBRA® PRODUCT?

The expectations for a ZEBRA® product are quite simple:

EXTREME PERFECTION!

For only those products of premium quality with clever problem solving solutions, perfect ergonomics, optimized performance, top efficiency, functionality and service life are given the coveted Zebra stripes.

We don't make compromises when it comes to the quality of our tools. Every product is subjected to endurance tests for days and sometimes weeks at our testing laboratories. These tests are always practice-oriented and are usually even much tougher than practical use itself.
