Your vehicle is only as good as
THE TIRES IT RIDES ON!

According to CAA:

"Hitting potholes and consistently driving on poorly maintained roads throws out wheel alignment and diminishes the treads on tires, making it harder to steer in bad weather."

We are committed to providing you with highly reliable and effective products. Also, as often as possible we like to bring vehicle-specific products into our range.

Talk to your representative for the latest information on how you can increase the quality of your customer's ride.

TIRE INFO

Why is Tire Maintenance Important?

Tire maintenance is often overlooked because vehicle owners focus on various exterior aspects and functionality of the vehicle such as the engine & radiator system, etc. The importance of properly maintaining your tires cannot be overemphasized, as tires are the only contacts between your vehicle and the road.

Würth is committed to supplying the best quality products for your vehicle.

With our quality products and regular tire maintenance, not only will you have a better ride but it will also be more secure!

Steps for Tire Repair

- ① **Inspect**
- ② **Pre-Clean**
- ③ **Buff & Cut**
- ④ **Post-Clean**
- ⑤ **Install**
- ⑥ **Finish - Wash & Protect**

How to read a Tire Sidewall

You can trust Würth's quality brand of tools and accessories for all your tire and maintenance needs. Quality tools make tire service fast and easy!

Stud Cleaning Brush Kit

697.900015 • 12 pcs.

All-in-one kit for ease of use!

Quickly and effectively removes dust and debris from wheel studs!

Cleans **10 studs** in under **3 minutes!**

Stud Cleaning Tools

13 mm • 697.900004

22 mm • 697.900005

Replacement Brushes

12-22 mm • 697.90...

Wheel Hub Cleaning Tool

585.1905

Designed to clean rust, corrosion and other build up from the base of the wheel stud, wheel drums and tire rims.

Hub Cleaning Discs

1" • 585.2001

2" • 585.2002

2.5" Buffing Wheel

Stainless Steel

714.33001

Skiving Brush

879.1433...

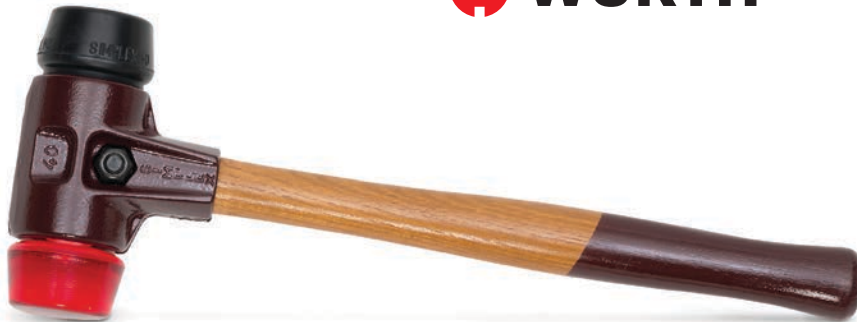

SIMPLEX

Soft Face Hammer

715.7220

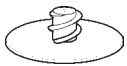

This soft face hammer won't damage wheels when extra removal force is required.

2" Surface Conditioning Discs (Type 'R')

585.42...

Use **medium and coarse** surface conditioning discs for steel surfaces. Use **fine and extra fine** surface conditioning discs for aluminum surfaces.

Type 'R' attachment

Blue Quick Strip Discs - Type 'R'

2"/3"/4" • 585.216...

Effective in the removal of rust, paint, graffiti, undercoating and for metal cleaning prior to welding.

Much **safer** and **faster** than steel wire wheels!

BRUSHES

9" Brake Saddle Brush

715.5526

Heavier than normal steel bristles (chrome-vanadium) for quick removal of debris and longer life.

Great for cleaning the **tight areas** around **wheel hubs/ wheel studs!**

Hand Brush
697.4

Application Swab
829.81556

Small Cleaning Brush

Tire Repair Kit 829.100

Contents:

50 - 4" Fat Brown Inserts, Spiral Cement Probe, Split-Eye Insert Tool with Plastic Handle, 1 jar lubricant, 1 knife, 1 repair booklet

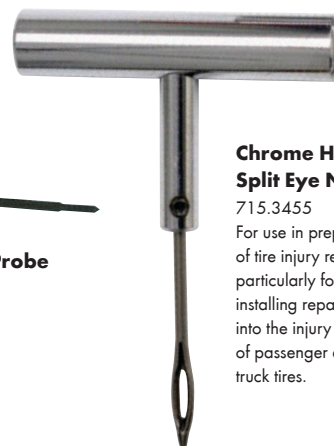

Plastic T-Handle
829.917

Injury Probe
829.911

Metal Injury Probe
715.3453

**Chrome Handle
Split Eye Needle**
715.3455
For use in preparation of tire injury repair particularly for installing repair inserts into the injury channel of passenger and light truck tires.

VALVE & VALVE CORE TOOLS

- 1 Valve Insertion Tool** 715.5404
Used for tubeless tire valves
- 2 Valve Core Torque Tool** 715.54004
4 inch pounds
- 3 Valve Core Removal Tool** 469.715175
For use with Schrader valves
- 4 Valve Core Removal Tool (Screwdriver Type)** 715.54003
Removes tire valve cores from standard bore tire valves

Valve Insertion Removal Tool

715.5404602

Würth VIRT (Valve Insertion Removal Tool) is the only tool on the market with a quick coupling design to remove valve stems easily without the need to thread onto the valve!

- 7 Black Plastic Cap 879.45, 8 Grey Plastic Cap 879.455, 9 Green Plastic Cap to Indicate Nitrogen Filled Tires 879.451

Air Chucks 715.540...

Air chucks for standard bore tire valves.

Open chucks are used with tire changers and tire inflators, that can control the flow or stopping of airflow.

Closed chucks are used with live air lines where there is no other control for stopping the air from escaping. The pin inside the chuck compresses when pushed up against the tire valve to allow the air to flow.

Würth offers a wide range of lead wheel weights for all makes and models. Browse some of our most popular selections here - and find our full range on our eShop!

Passenger Car Weights

MCS SERIES
(Plastic Coated) 1/4 oz. to 3 oz.
830.203...
Buick, Cadillac, Chevrolet, Dodge, Chrysler, Ford, Hyundai, GMC

FNS SERIES
(Polyester Coated) 5G to 60G
830.209...
Acura, Honda, Infiniti, Lexus, Mazda, Nissan, Toyota, Fiat, Subaru

ENS SERIES
(Polyester Coated) 10G to 50G
830.200...
Audi, Mercedes, VW
Also used for alloy wheels with thin rim flanges!

IAWS SERIES
(Short Clip) 5G to 60G
830.207...
BMW, Jaguar, Suzuki, Volvo, Kia, Mitsubishi, Ford, Lincoln, Mazda, Mini, Smart, Hyundai

AWS SERIES
(Polyester Coated) 1/4 oz. to 3 oz.
830.205...
Chrysler, Ford, GM, C5 Corvette

REG SERIES
(13"-15" Steel Wheels) 10G to 50G
830.111...
Used on passenger car steel wheels

GY-UNIVERSAL STEEL
(Uncoated) 1/4 oz. to 5 oz.
830.5...
Special Honda weight, used on passenger car steel wheels

Truck & Pickup Weights

TAL-S SERIES

2 oz. to 8 oz.

831.200...

Used on heavy trucks equipped with Alcoa or Accuride tubless alloy wheels. Fits both sides of the wheel.

I-7 SERIES

2 oz. to 8 oz.

831.100...

Used on the majority of medium and heavy duty trucks equipped with tube-type tires.

TS SERIES

5G to 60G

830.110...

Used on full size pickups trucks and vans.

Balance = Quality

An unbalanced tire can adversely affect ride quality, shorten the life of your tires, bearings, shocks and other suspension components. As well, it can be the difference between a good or bad driving experience. Some cars (and drivers) are more sensitive to an unbalanced tire than others, but no one is happy with a vibration.

More Lead Weights

Low Profile Pre-Cut

(Polyester Coated Lead)

830.14.305 / 830.14.30552

Length: 6" / Weight: 1/4 oz. / For all applications.

Narrow, Pre-Cut

(Polyester Coated Lead)

830.014.60

Length: 6" / Weight: 1/4 oz.

For all applications. Narrow - Ideal for Motorcycles.

Regular, Reduced Middle Web

(Polyester Coated Lead)

830.14.315

Length: 6" / Weight: 1/2 oz.

For all applications. Powerful cold weather adhesive.

Regular, Reduced Middle Web

(Polyester Coated Lead)

830.14.320

Length: 6" / Weight: 1 oz.

For all applications. Powerful cold weather adhesive.

Low Profile Pre-Cut Black

(Polyester Coated Lead)

830.14.3100

Length: 3/4" x 6" / Weight: 1/4 oz.

BALANCING BEADS

Balancing beads provide a solution for wheel and tire assemblies that are not traditionally balanced. Ask your Würth Sales Representative for more information on how to use our balancing beads.

Tire Balancing Beads

Due to its patented electrostatic technology, Würth Balancing Beads hold the out of balance position inside the tire when the vehicle moves slowly, stops, starts and turns. Würth Balancing Beads provide a 100% true balance of not only the tire and wheel, but the entire wheel assembly.

Recommended Applications	Weight	Number of Sachets per Package	Art. No.	P. Qty.	Case Art. No.	Case Qty.
Motorcycles/ATV	1 oz.	4	822.016301	1	822.016301B	40 bags/160 sachets
	2 oz.		822.016302		822.016302B	32 bags/128 sachets
	3 oz.		822.016303		822.016303B	24 bags/96 sachets
Passenger Vehicles/ Light trucks	4 oz.	1	822.016304		822.016304B	92 bags/sachets
	6 oz.		822.016306		822.016306B	64 bags/sachets
	8 oz.		822.016308		822.016308B	52 bags/sachets
	10 oz.		822.016310		822.016310B	40 bags/sachets
	12 oz.		822.016312		822.016312B	36 bags/sachets
Light - Medium & Heavy Trucks	14 oz.		822.016314		822.016314B	42 bags/sachets
	16 oz.		822.016316		822.016316B	28 bags/sachets
	20 oz.		822.016320		822.016320B	24 bags/sachets

Note: It is recommended to install balancing beads with the **Würth Injector Tool** (822.0200)

ADVANTAGES

Improve fuel economy

Increase tire life

Reduce vibrations

Environmentally friendly

Würth Balancing Beads provide a **100% true balance** of not only the tire and wheel, but of the entire wheel assembly.

LEAD FREE

A Greener Option

Würth Canada offers zinc and steel wheel weights as a greener alternative without sacrificing all the important characteristics such as retention and corrosion resistance. Switching to a lead-free alternative will allow each of us to reduce the accumulation of lead in our environment.

Zinc is the premium alternative material to lead and the choice of most OEMs! Shop our full range on our eShop or ask your Würth Sales Representative for more information.

Our environmentally-friendly steel wheel weights provide excellent corrosion resistance. They have a rounded clip end for a scratch-free installation as well as superior retention! They are also OEM quality, fit, form, and function.

PLASTEEL® WHEEL WEIGHTS

Steel weight with the look of a traditional weight!

A revolutionary steel core clip-on wheel weight encased in a plastic overmold. Lead weights are a major cause of damage to alloy wheels. The reaction, called galvanic corrosion, induced by the contact of lead with the aluminum of the wheel, causes discolouration and pitting of the alloy. **This is completely eliminated with Plasteel®.**

CHEMICAL PRODUCTS FOR INSTALLATION

Tire Lube (Ready-to-Use)

890.122101 • 3.78 L

An environmentally friendly lubricant that helps tire beads seat properly and protects them from damage during the mounting or demounting process.

Tire & Rubber Lubricant

890.12500 • 440 g

A special spray lubricant that facilitates the assembly and disassembly of rubber parts.

AL 1100

893.1100 (Spray) • 242 g
893.11010 (Paste) • 1000 g

High temperature aluminum paste with excellent adhesive lubricating, separating and corrosion protection.

Würth quality chemical products are reliable and provide you with premium installation results!

Tire Mount/Demount Compound

890.1225 • 25 lbs.

Protects tire beads from damage and helps beads to seat properly.

Tire Fitting Paste

890.1221 • 11 lbs.

Pressure resistant, transparent fitting film. For fitting of car, truck and motorcycle tires. Excellent lubrication.

Use with:

Tire Paste Brush

829.815561

CHEMICAL PRODUCTS

Würth quality chemical products are reliable and provide you with premium installation results!

CHEMICAL PRODUCTS FOR INSTALLATION

Vulcanizing Tire Cement

890.100019 • 236 mL

890.100012 • 946 mL

For general purpose repair - patch to tire bonding.

Inner Liner Sealer

893.455472 • 472 mL

For use with all passenger, commercial, truck, farm service and O.T.R. tires.

Bead Sealer

High Strength: 890.122000 • 946 mL

Regular Strength: 890.122001 • 946 mL

Bead Sealer is used as a positive seal between the rim and tire to prevent air pressure loss.

Leak Detector

890.20 • 400 g

Finds leaks in compressed air and gas systems

Easy and time saving way of finding leaks while the system is still working.

Leak Seeker Concentrate

892.450238 • 238 mL

Find the injury location fast!

For use on tires, tubes and rims.

Tire Prep (Pre-Buffing Cleaner)

893.122003 • 453 g

829.490996 • 946 mL

For removing dirt, debris and mold lubricants from the repair area prior to buffing.

CHEMICAL PRODUCTS FOR CLEANING & PROTECTION

Eco Aluminum Wheel Cleaner

890.10250 • 500 mL
890.10204 • 4 L
890.102020 • 20 L

Particularly well suited for polished and high quality alloy wheels. Dissolves brake dust, road salt, dirt and tar.

500 mL Empty Bottle
891.10250

Aluminum Wheel Cleaner

890.102 • 500 mL
Removes even the most stubborn deposits of brake dust and tar stains, and other hard-to-remove contaminants.

Tire Shine (Ready-to-Use)

890.12104 • 4 L

Water-based formula will not cause micro-cracking of the tire surfaces. This solvent-free formulation contains no VOCs.

500 mL Empty Bottle with Sprayer
891.502002

Eco Lustre Metal Polisher

893.15460 500 mL

Tire Dressing

890.121500 • 500 mL
890.121004 • 4 L / 890.121020 • 20 L

Silicone-Free Tire Shine

890.1215 306 g

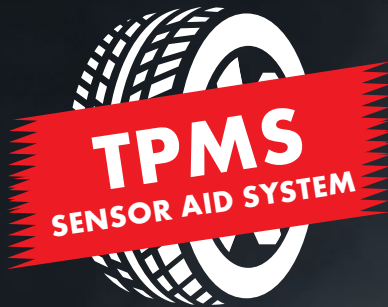

Foaming Tire Cleaner

890.121 • 412 g

Würth quality chemical products are reliable and provide you with premium installation results!

TPMS SENSOR AID SYSTEM WITH OBD II 879.02405

Sensor AID is designed to diagnose and interact with tire pressure monitoring sensors using wireless (radio frequency) communication.

TPMS Sensor Kit Contents:

Sensor AID tool, OBD II Interface, power adapter, USB connector, TPMS owner's manual, warranty card

Sensor AID will verify the unique identity of each sensor mounted on wheels, display current pressures, internal tire temperature and battery condition of the sensor.

Cloning and programming 4 OEM sensors to Würth TPMS sensors can be done in under **1 minute combined!**

NOVA Foam Lined Safety Glasses

● 899.103218 / ● 899.103220

Comfortable and lightweight safety glasses with *integrated foam padding* to limit eye exposure to dust particles.

Removable, flame resistant foam padding helps limit eye exposure to dust and particles while providing additional cushioning

Ear Plugs – Individually Wrapped Pairs
899.300900 • 200 PR/BX
